ISC TANDEM DATABASE

Tandem is a way of mutual learning and teaching languages. You will find someone who would teach you a foreign language and you would teach him yours in return.

The main advantage of Tandem is that it will be just you two, who will set the time and the intensity of the courses! You can form as many couples as you wish.

If you join the ISC Tandem Database, you will get the access to the list of students looking for a Tandem partner and other students will be able to find you.

After Installation

The screenshot shows a mobile app interface with a blue header and a white content area. At the top, there's a status bar with icons for signal, battery (46%), and time (0:37). Below the status bar is a map icon with a red location pin. The main text reads: "Dear exchange student welcome to the Czech Republic". Below this, it says: "First, choose your city where are you during your exchange studies". There is a dropdown menu with "Praha" selected. Then, it says: "Then choose your universities". There are five checkboxes with university names: "Czech Technical University in Prague" (checked), "Czech University of Life Sciences Prague", "Charles University in Prague", "University of Chemistry and Technology Prague", and "University of Economics, Prague". At the bottom of the form is a blue button labeled "SAVE". The bottom of the screen shows the Android navigation bar with back, home, and recent apps icons.
